

Center for Adaptive Optics

# *Big Island Internship Symposium*

February 1, 2005

5:00–6:30 PM

University of Hawaii at Hilo, UCB 100

Reception to Follow

## *Student Presentations*

**A Correlation Between Water Vapor  
Measured in the Near Infrared and Op-  
tical Depth Measured at 225 GHz**

*Jenny Berghuis*

Institute for Astronomy (IFA)

**Investigation into the Effects of Antenna  
Tilts on Pointing for the SMA Antennas**

*Ben Berkey*

Smithsonian Astrophysical Observatory  
Sub Millimeter Array (SMA)

**Data Reduction, Observing Runs  
and Science: Summer Internship at the  
Gemini Observatory.**

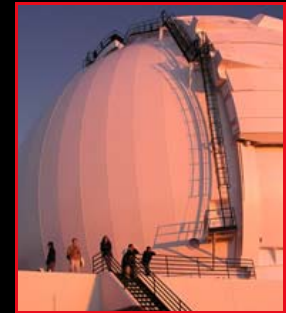

*Sarah Knights*

Gemini Observatory

**L and Ms Band Spectroscopy with  
NIRC2 and Keck II Adaptive Optics:  
Feasibility Observations of NGC7027  
and DH141569**

*Sunny Stewart*

W.M. Keck Observatory
